To,

Honorable Anupriya Patel
Minister of Health & Family Welfare (State)
Government of India

Dear Madam,

In response to your statement given by you in the Lok Sabha on dated 28 .7. 2012 that EH is not a recognized system of medicine in India is true and acceptable but we being the representative of the National electrohomeopathy association want to bring in your kind notice that EH practiced is allowed around the country as per the direction and executive order made on 5.5.2010 by the Ministry of health and family welfare. We want to bring in your kind notice that EH is fulfilling all essential and desirable criteria to prove as itself as a medical science.

Because EH follow the law of similia so this is a reason that why the word "homoeo" is used in electrohomeopathy. No doubt EH is not follow the way of Dr Hanhamann but even the drugs belong to the EH acts homoeopathically because it is based on the law of similia, law of aggravation and law of making dilution and dynamisation. Electrohomeopathy follow the German Homoeopathic pharamacopia to make its spagyric medicines and this Pharamacopia is dully recognized under the schedule B of the drugs and cosmetic act of 1940.

We will submit the all details about the essential and desirable criteria in the proposal as asked by the Ministry of health and family welfare research desk in coming days.

We are hoping your kind cooperation regarding this issue that please go in the each and every legal, scientific and historical facts of this 200 years old science which is practicing in India since 1920. Dear madam we are very much hopeful from you that your Ministry will do justice with the thousand barefoot practitioners practicing electrohomeopathy in India .

Thanks and hoping for your kind cooperation in this regard.

Sincerely Yours,

Dr. Mohd Aslam

District President Mirzapur,

Erdo, New Delhi.
